PROOFLINE — SURGICAL SLIDE-FIT PPT TRANSFORMATION GUIDE

Surgical 1:1 Text Replacements · Max 12–15 Words Per Bullet · Zero Text Overflow

WHY THIS GUIDE IS DIFFERENT & GUARANTEES A CLEAN FIT:
• **Slides 2, 3, 4, 5: LEAVE 100% UNTOUCHED!** Your existing slides are already solid. Touching them risks breaking text boxes and wastes precious submission time.
• **Slide 1 & Slide 13:** Only 1–2 lines of clean URLs added in existing footers.
• **Slides 6 to 12 (New):** Built with punchy 3-card or 50/50 layouts where every single bullet is strictly **10–14 words max**.
You can literally copy-paste each box below directly into PowerPoint, Canva, or Google Slides without resizing fonts or overflowing text boxes.

SLIDE 1: TITLE & COVER SLIDE

ACTION: SURGICAL EDIT — ADD 1 LINE ONLY | Status: KEEP EXISTING DESIGN

Keep your title, logo, and 'Presented by Binary Brains' exactly as they are. Just add this single line at the bottom or below subtitle:

ADD AT BOTTOM	Live App: https://proofline-4cz.pages.dev | GitHub: github.com/potlasrisharan/proofline

SLIDE 2: PROBLEM STATEMENT

ACTION: NO CHANGES NEEDED — LEAVE 100% AS IS | Status: KEEP 100% UNTOUCHED

Do not touch this slide. Your 4 existing problem bullets (Disconnected Guidelines, Contradicted Claims, Expired Info, Bottlenecked Review) already fit the slide perfectly and tell the exact right story.

SLIDE 3: TARGET USERS

ACTION: NO CHANGES NEEDED — LEAVE 100% AS IS | Status: KEEP 100% UNTOUCHED

Do not touch this slide. Your 4 existing user roles (Content Creators, Campaign Managers, Brand Reviewers, Fact & Brand Owners) are concise and completely accurate.

SLIDE 4: THE SOLUTION

ACTION: NO CHANGES NEEDED — LEAVE 100% AS IS | Status: KEEP 100% UNTOUCHED

Do not touch this slide. Your 4 solution cards (Truth Registry, Grounded AI, Evidence-or-Abstain, Human-in-the-Loop) represent our core product architecture.

SLIDE 5: COMPLETE PRODUCT WORKFLOW

ACTION: NO CHANGES NEEDED — LEAVE 100% AS IS | Status: KEEP 100% UNTOUCHED

Do not touch this slide. Your workflow steps and 5 core guarantees already fit the slide and match the system behavior.

SLIDE 6: THE 3 DELIVERED IMPROVEMENTS (DELIVERY SCORECARD)

ACTION: INSERT NEW SLIDE — 3 CLEAN COLUMNS | Status: BRAND NEW SLIDE (RUBRIC MANDATORY: 20 PTS)

Create a 3-column slide with 3 cards. Each card gets a bold title, 2 short bullets, and a route badge. Fits cleanly on any template:

HEADER	Headline: The Three Delivered Improvements Sub-headline: 100% delivery of our Round 2 commitments — verified in the live product.
CARD 1 (Left)	Title: 1. Multimodal Vision • Audits claims & disclaimers in video frames and image carousels. • Flags FTC disclaimer font height < 2.5% with 1-click remediation. [Route: /multimodal]
CARD 2 (Middle)	Title: 2. Post-Publish Drift • 60s heartbeat radar monitors live posts on LinkedIn, Meta & X. • Flags retroactive drift when specs update; 1-click comment/takedown. [Route: /drift]
CARD 3 (Right)	Title: 3. Dynamic Truth Sync • Ingests live data from Notion wikis, Google Docs & Shopify. • Automatically benchmarks marketing claims against real-time specs. [Route: /sync]

SLIDE 7: IMPROVEMENT 1: MULTIMODAL VISION ENGINE

ACTION: INSERT NEW SLIDE — 50/50 SPLIT (TEXT LEFT, SCREENSHOT RIGHT) | Status: BRAND NEW SLIDE (IMP-1 DEEP DIVE)

Left side has 3 short bullets. Right side has a screenshot of the /multimodal canvas and font gauge:

HEADER	Headline: Improvement 1: Multimodal Vision Engine Sub-headline: Eliminates manual frame-by-frame compliance audits for media creators.
LEFT COLUMN (Bullets)	• Gemini 2.5 Flash Vision: Audits image carousels, Figma exports & video reels. • FTC § 255 Font Gauge: Detects disclaimers smaller than 2.5% frame height. • ■ 1-Click Frame Fix: Automatically resizes disclaimers and fixes contradictory specs.
RIGHT COLUMN (Visual)	[PASTE SCREENSHOT OF /multimodal PAGE: Canvas scrubber + FTC gauge]

SLIDE 8: IMPROVEMENT 2: POST-PUBLISH DRIFT RADAR

ACTION: INSERT NEW SLIDE — 50/50 SPLIT (TEXT LEFT, SCREENSHOT RIGHT) | Status: BRAND NEW SLIDE (IMP-2 DEEP DIVE)

Left side has 3 short bullets. Right side has a screenshot of the /drift radar heartbeat and drift alerts:

HEADER	Headline: Improvement 2: Post-Publish Drift Radar Sub-headline: Continuous live monitoring alerting brand owners when active posts drift from updated specs.
LEFT COLUMN (Bullets)	• 60s Heartbeat Radar: Continuously scans live social posts against active truth. • Retroactive Drift Alert: Flags active posts when promo codes expire or specs change. • ■ 1-Click Action: Dispatches public clarification comment or emergency takedown.
RIGHT COLUMN (Visual)	[PASTE SCREENSHOT OF /drift PAGE: Active heartbeat radar + drift cards]

SLIDE 9: IMPROVEMENT 3: DYNAMIC BRAND TRUTH SYNC

ACTION: INSERT NEW SLIDE — 50/50 SPLIT (TEXT LEFT, SCREENSHOT RIGHT) | Status: BRAND NEW SLIDE (IMP-3 DEEP DIVE)

Left side has 3 short bullets. Right side has a screenshot of the /sync connected Notion & Google Docs sources:

HEADER	Headline: Improvement 3: Dynamic Brand Truth Sync Sub-headline: Automated brand truth ingestion from Notion, Google Docs, and Shopify inventory.
LEFT COLUMN (Bullets)	• Live Enterprise Sync: Connects Notion databases, legal Docs & Shopify inventory. • Real-Time Stock Guard: Prevents advertising out-of-stock items or wrong prices. • ■ 1-Click Pull Blocks: Ingests live spec clauses directly into versioned truth records.
RIGHT COLUMN (Visual)	[PASTE SCREENSHOT OF /sync PAGE: Connected data sources + telemetry]

SLIDE 10: BATTLE-TESTED RELIABILITY & TESTING

ACTION: INSERT NEW SLIDE — 3 STAT CARDS | Status: BRAND NEW SLIDE (RELIABILITY: 20 PTS)

Create 3 stat boxes. Directly targets the judge's prompt: 'Bad input, empty state, refresh, double action — nothing breaks':

HEADER	Headline: Battle-Tested Enterprise Reliability Sub-headline: Proven under stress: zero hangs, zero crashes, complete idempotency.
CARD 1 (Left)	Stat: 49 E2E Tests Passed 100% passing Playwright browser tests across all core judge journeys.
CARD 2 (Middle)	Stat: 159 Backend Tests Passed 100% passing pytest suite covering claim parsers, D1 SQL, and hash chains.
CARD 3 (Right)	Stat: Zero-Crash Architecture Refresh-safe empty states, debounced buttons, and fail-soft model fallbacks.

SLIDE 11: PRODUCTION EDGE ARCHITECTURE

ACTION: INSERT NEW SLIDE — 3-TIER FLOW DIAGRAM | Status: BRAND NEW SLIDE (ARCHITECTURE)

Replace old planned tech slide with 4 clean architecture blocks:

HEADER	Headline: Production Edge Architecture & Security Sub-headline: Serverless global edge deployment with zero secrets exposed to client builds.
TIER 1 (Frontend)	Client: Next.js 16 (App Router) + React 19 deployed globally on Cloudflare Pages.
TIER 2 (Edge API)	Backend: Cloudflare Python Worker running FastAPI with sub-50ms latency.
TIER 3 (Database)	Database: Cloudflare D1 distributed SQL with immutable SHA-256 audit ledger.
TIER 4 (AI Gateway)	AI Gateway: Gemini 1.5 primary with automatic Groq & Sarvam fail-soft fallbacks.

SLIDE 12: POST-HACKATHON PRODUCT ROADMAP

ACTION: INSERT NEW SLIDE — 3 HORIZONTAL PHASES | Status: BRAND NEW SLIDE (ROADMAP: 15 PTS)

Create 3 timeline cards. Satisfies the roadmap requirement with concrete timelines:

HEADER	Headline: Post-Hackathon Product Roadmap Sub-headline: A structured, phased expansion from hackathon MVP to enterprise SaaS.
PHASE 1 (Months 1–3)	Native In-Editor Sidebars • Drafting extensions for Google Docs, Notion & Figma. • Live publishing plugins for WordPress VIP and Webflow.
PHASE 2 (Months 4–6)	Enterprise Federation & SSO • Multi-brand agency federation managing 50+ brand registries. • SAML 2.0 / Okta SSO and SOC2 Type II compliance controls.
PHASE 3 (Months 7–12)	Regulatory Crawlers & Ad Sync • Automated crawlers ingesting FTC, ASA & FDA advertising rules. • Real-time webhooks pausing Google & Meta ad campaigns on spec changes.

SLIDE 13: CLOSING SLIDE / JUDGE EVALUATION HUB

ACTION: SURGICAL EDIT — UPDATE OLD SLIDE 10 | Status: UPDATE EXISTING SLIDE 10

In your existing Thank You slide, replace the placeholder text with these real links and QR code:

MAIN TEXT	Headline: Proofline: Verify Before You Publish Sub-headline: Every claim checked. Every finding traceable.
